CAREER OBJECTIVE

Aspiring AI/ML professional with a foundation in Python, programming, and intelligent application development, seeking opportunities to apply my skills in Artificial Intelligence, Machine Learning, and Generative AI while building practical real-world solutions.

EDUCATION

GM Institute of Technology, Davanagere *2023 – 2027*
B.E. in Information Science and Engineering **CGPA: 8.5/10**

TECHNICAL SKILLS

Programming	Python, Java, SQL
AI/ML	Artificial Intelligence, Machine Learning, Generative AI, NLP
Web Development	HTML, CSS, JavaScript, React, REST APIs
Frameworks	Spring Boot, Node.js
Tools	Git, GitHub, Google Cloud

PROJECTS

ECHO – Your AI Companion, Anytime

- An intelligent AI companion that lets you chat, talk, and connect through video.
- With AI memory, emotion-aware responses, voice interaction, and personalized personas.
- Designed to make every conversation feel natural, supportive, and more human-like.
- Using the Spring Boot framework, REST APIs, and prompt engineering to interact with and control AI models.

VoiceStudio – Conversational AI for Real-Time Web Interface Generation

- Developed an AI-powered web builder that enables users to create and modify interfaces using natural-language voice and text commands.
- Implemented context-aware UI editing to interpret commands such as "move it right," "make it bigger," and "make this button premium" based on the selected element.
- Automated the conversion of AI-generated UI layouts into structured HTML, CSS, and JavaScript code for direct development use.
- Built using React and the MERN stack for developing a dynamic and interactive web application.

SentinelCloud – Cloud Auto Vulnerability Detection & Automation

- Developed a cloud security platform to identify and analyze infrastructure vulnerabilities.
- Designed automated workflows for security analysis, remediation, and verification.
- Built using Java, Spring Boot, Node.js, and cloud technologies such as GCP, OCI, and AWS.

ACHIEVEMENTS

- Completed 70+ Google Cloud skill badges and multiple hands-on cloud labs and challenges.
- Recognized as a Google Cloud Arcade Ranger.
- Participated in many hackathons and given a best participation
